application  
assistance  Thanksgiving  
meals,  
holiday gifts,  
and backpacks  
for families

**In 2020, the COVID-19 pandemic brought more uncertainty to our already struggling clients. Beverly Bootstraps rose to the challenge.**

- We pivoted our Food Assistance program to provide a socially distance Food Pantry model.
- Distributed 515,657 pounds of food.
- Quickly developed a Senior Delivery program bringing food directly to the homes of local seniors in need, unable to leave their homes due to COVID-19.
- Food Pantry and Senior Delivery programs saw a 35% increase in the number of visits!
- Families with school-age children received weekly access to the Pantry, instead of every 14 days.
- Assisted over 300 new clients in need of help as a result of the on-going pandemic.
- Implemented a virtual Adult Education program, where students and tutors meet and learn online.
